

## TITLE 20

### MISCELLANEOUS

#### CHAPTER 4

#### Smoking in Municipal Facilities

##### SECTION

##### 20-402. Definitions

**20-402. Definitions.** For purposes of this ordinance, the following words shall have the meaning as stated:

(1) “Smoke” or “smoking” means the carrying of a lighted pipe, cigar, cigarette of any kind, or the lighting of a pipe, cigar, or cigarette of any kind.

(2) “Municipal facility” means any enclosed area and/or facility which is owned, operated, leased, or under the control of the Town of Smyrna to which the public is invited or in which the public is permitted, including, but not limited to, waiting rooms, lobbies and reception areas, education facilities, and areas in which town employees normally frequent during the course of employment, including , but not limited to, work areas, employee lounges, and conference rooms.

(3) “Tobacco product” means tobacco in any form, including, but not limited to, snuff, chewing tobacco, cigars, and pipe tobacco.

(4) “Electronic/Vapor Cigarettes” means battery-powered vaporizer that simulates the feeling of smoking.[1] The user automatically activates the e-cigarette (also known as e-cig) by taking a puff;[2] other devices turn on by pressing a button manually.[3] They are often cylindrical, with many variations.[4] Their use is commonly called vaping.[5] Some e-cigarettes look like traditional cigarettes, but others do not.[6] There are disposable and reusable versions.[7] Instead of cigarette smoke, the user inhales an aerosol, commonly called vapor.[8] E-cigarettes typically have a heating element that atomizes a liquid solution known as e-liquid.[9] E-liquids usually contain propylene glycol, glycerin, water, nicotine, and flavorings.[10] E-liquids are also sold without propylene glycol, without nicotine, or without flavors.
